PART II
HUMAN SERVICES

Sec. 201. 1999 c 309 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1)
Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified herein. However, after May 1, 2000, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2000 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for

1 a specified purpose except as expressly provided in subsection (3)(b)
2 and (c) of this section.

3 (b) To the extent that transfers under subsection (3)(a) of this
4 section are insufficient to fund actual expenditures in excess of
5 fiscal year 2000 caseload forecasts and utilization assumptions in the
6 medical assistance, long-term care, foster care, adoption support,
7 voluntary placement, and child support programs, the department may
8 transfer state moneys that are provided solely for a specified purpose
9 after approval by the director of financial management.

10 (c) The director of financial management shall notify the
11 appropriate fiscal committees of the senate and house of
12 representatives in writing prior to approving any allotment
13 modifications.

14 (4) Appropriations in section 207 of this act shall be used to
15 conduct a study of the most efficient method for allocating the cost of
16 department programs to benefiting federal programs. The department
17 shall provide a plan for the study to the office of financial
18 management by May 1, 2000. The final report shall be submitted to the
19 office of financial management by December 1, 2000. In conducting this
20 study, the department shall consider the short and long-term cost of
21 operating the current overhead cost allocation system compared to
22 alternative systems. The study shall also address the change in the
23 allocation of costs to benefiting federal programs.

25 (b) For school districts with a minimum enrollment of 250 full-time
26 equivalent students whose full-time equivalent student enrollment count
27 in a given month exceeds the first of the month full-time equivalent
28 enrollment count by 5 percent, an additional state allocation of 110
29 percent of the share that such increased enrollment would have
30 generated had such additional full-time equivalent students been

22 average annual full time equivalent students.

23 Units calculated under (f)(ii) of this subsection shall be reduced
24 by certificated staff units at the rate of forty-six certificated

27 benefits, full-time equivalent classified employees may be calculated
28 on the basis of 1440 hours of work per year, with no individual
29 employee counted as more than one full-time equivalent.

30 (6)(a) For nonemployee-related costs associated with each
31 certificated staff unit allocated under subsection (2)(a), (b), and (d)

17 1998-99 school year.

18 (8) Any school district board of directors may petition the

1 (b) As used in this subsection, the column headings "BA+(N)" refer
2 to the number of credits earned since receiving the baccalaureate
3 degree.

4 (c) For credits earned after the baccalaureate degree but before
5 the masters degree, any credits in excess of forty-five credits may be
6 counted after the masters degree. Thus, as used in this subsection,
7 the column headings "MA+(N)" refer to the total of:

8 (i) Credits earned since receiving the masters degree; and

9 (ii) Any credits in excess of forty-five credits that were earned
10 after the baccalaureate degree but before the masters degree.

11 (5) For the purposes of this section:

12 (a) "BA" means a baccalaureate degree.

13 (b) "MA" means a masters degree.

14 (c) "PHD" means a doctorate degree.

15 (d) "Years of service" shall be calculated under the same rules
16 adopted by the superintendent of public instruction.

17 (e) "Credits" means college quarter hour credits and equivalent in-
18 service credits computed in accordance with RCW 28A.415.020 and
19 28A.415.023.

20 (6) No more than ninety college quarter-hour credits received by
21 any employee after the baccalaureate degree may be used to determine
22 compensation allocations under the state salary allocation schedule and
23 LEAP documents referenced in this act, or any replacement schedules and
24 documents, unless:

25 (a) The employee has a masters degree; or

26 (b) The credits were used in generating state salary allocations
27 before January 1, 1992.

28 (7) The certificated instructional staff base salary specified for
29 each district in LEAP Document 12E and the salary schedules in
30 subsection (4)(a) of this section include a 1.67 percent increase for
31 three learning improvement days added in the 1999-00 school year and
32 maintained in the 2000-01 school year. A school district is eligible
33 for the learning improvement day funds for school years 1999-00 and
34 2000-01, only if three days have been added to the base contract in
35 effect for the 1998-99 school year. If fewer than three days are
36 added, the additional learning improvement allocation shall be adjusted
37 accordingly. The additional days shall be for activities related to
38 improving student learning consistent with education reform
39 implementation. The length of a learning improvement day shall not be

1 less than the length of a full day under the base contract. The
2 superintendent of public instruction shall ensure that school districts
3 adhere to the intent and purposes of this subsection.

4 (8) The salary allocation schedules established in this section are
5 for allocation purposes only except as provided in RCW 28A.400.200(2).

6 **Sec. 504.** 1999 c 309 s 504 (uncodified) is amended to read as

18 The appropriations in this section are subject to the following
19 conditions and limitations:

20 (1) Each general fund fiscal year appropriation includes such funds
21 as are necessary to complete the school year ending in the fiscal year
22 and for prior fiscal year adjustments.

23 (2) A maximum of (~~(\$1,475,000)~~) \$1,478,000 may be expended for
24 regional transportation coordinators and related activities. The
25 transportation coordinators shall ensure that data submitted by school

36 00 school year and (~~(\$35.20)~~) \$35.19 per weighted mile in the 2000-01
37 school year exclusive of salary and benefit adjustments provided in
38 section 504 of this act. Allocations for transportation of students

3 per mile reimbursement rates for the school year pursuant to the
4 formulas adopted by the superintendent of public instruction.
5 Allocations for transportation of students living within one radius
6 mile shall be based on the number of enrolled students in grades
7 kindergarten through five living within one radius mile of their
8 assigned school multiplied by the per mile reimbursement rate for the
9 school year multiplied by 1.29.

10 **Sec. 506.** 1999 c 309 s 507 (uncodified) is amended to read as
11 follows:

12 **FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION**
13 **PROGRAMS**

14	General Fund--State Appropriation (FY 2000) . . . \$	((392,036,000))
15		<u>387,280,000</u>
16	General Fund--State Appropriation (FY 2001) . . . \$	((393,461,000))
17		<u>385,334,000</u>
18	General Fund--Federal Appropriation \$	148,159,000
19	TOTAL APPROPRIATION \$	((933,656,000))
20		<u>920,773,000</u>

21 The appropriations in this section are subject to the following
22 conditions and limitations:

23 (1) Each general fund--state fiscal year appropriation includes
24 such funds as are necessary to complete the school year ending in the
25 fiscal year and for prior fiscal year adjustments.

26 (2) The superintendent of public instruction shall distribute state
27 funds to school districts based on two categories: The optional birth
28 through age two program for special education eligible developmentally
29 delayed infants and toddlers, and the mandatory special education
30 program for special education eligible students ages three to twenty-
31 one. A "special education eligible student" means a student receiving
32 specially designed instruction in accordance with a properly formulated
33 individualized education program.

34 (3) For the 1999-00 and 2000-01 school years, the superintendent
35 shall distribute state funds to each district based on the sum of:

36 (a) A district's annual average headcount enrollment of
37 developmentally delayed infants and toddlers ages birth through two,

1 multiplied by the district's average basic education allocation per
2 full-time equivalent student, multiplied by 1.15; and

3 (b) A district's annual average full-time equivalent basic
4 education enrollment multiplied by the funded enrollment percent
5 determined pursuant to subsection (4)(c) of this section, multiplied by
6 the district's average basic education allocation per full-time
7 equivalent student multiplied by 0.9309.

8 (4) The definitions in this subsection apply throughout this
9 section.

10 (a) "Average basic education allocation per full-time equivalent
11 student" for a district shall be based on the staffing ratios required
12 by RCW 28A.150.260 and shall not include enhancements, secondary
13 vocational education, or small schools.

14 (b) "Annual average full-time equivalent basic education
15 enrollment" means the resident enrollment including students enrolled
16 through choice (RCW 28A.225.225) and students from nonhigh districts
17 (RCW 28A.225.210) and excluding students residing in another district
18 enrolled as part of an interdistrict cooperative program (RCW
19 28A.225.250).

20 (c) "Enrollment percent" means the district's resident special
21 education annual average enrollment including those students counted
22 under the special education demonstration projects, excluding the birth
23 through age two enrollment, as a percent of the district's annual
24 average full-time equivalent basic education enrollment. For the 1999-
25 00 and the 2000-01 school years, each district's funded enrollment
26 percent shall be the lesser of the district's actual enrollment percent
27 for the school year for which the allocation is being determined or
28 12.7 percent.

29 (5) At the request of any interdistrict cooperative of at least 15
30 districts in which all excess cost services for special education
31 students of the districts are provided by the cooperative, the maximum
32 enrollment percent shall be 12.7, and shall be calculated in the
33 aggregate rather than individual district units. For purposes of this
34 subsection, the average basic education allocation per full-time
35 equivalent student shall be calculated in the aggregate rather than
36 individual district units.

37 (6) A maximum of \$12,000,000 of the general fund--state
38 appropriation for fiscal year 2000 and a maximum of \$12,000,000 of the
39 general fund--state appropriation for fiscal year 2001 are provided as

1 safety net funding for districts with demonstrated needs for state
2 special education funding beyond the amounts provided in subsection (3)
3 of this section. Safety net funding shall be awarded by the state
4 safety net oversight committee.

5 (a) The safety net oversight committee shall first consider the
6 needs of districts adversely affected by the 1995 change in the special
7 education funding formula. Awards shall be based on the amount
8 required to maintain the 1994-95 state special education excess cost
9 allocation to the school district in aggregate or on a dollar per
10 funded student basis.

11 (b) The committee shall then consider unusual needs of districts
12 due to a special education population which differs significantly from
13 the assumptions of the state funding formula. Awards shall be made to
14 districts that convincingly demonstrate need due to the concentration
15 and/or severity of disabilities in the district. Differences in
16 program costs attributable to district philosophy or service delivery
17 style are not a basis for safety net awards.

18 (c) The maximum allowable indirect cost for calculating safety net
19 eligibility may not exceed the federal restricted indirect cost rate
20 for the district plus one percent.

21 (d) Safety net awards shall be adjusted based on the percent of
22 potential medicaid eligible students billed as calculated by the
23 superintendent in accordance with Substitute Senate Bill No. 5626
24 (medicaid payments to schools).

25 (e) Safety net awards must be adjusted for any audit findings or
26 exceptions related to special education funding.

27 (7) The superintendent of public instruction may adopt such rules
28 and procedures as are necessary to administer the special education
29 funding and safety net award process. Prior to revising any standards,
30 procedures, or rules, the superintendent shall consult with the office
31 of financial management and the fiscal committees of the legislature.

32 (8) The safety net oversight committee appointed by the
33 superintendent of public instruction shall consist of:

34 (a) Staff of the office of superintendent of public instruction;

35 (b) Staff of the office of the state auditor;

36 (c) Staff of the office of the financial management; and

37 (d) One or more representatives from school districts or
38 educational service districts knowledgeable of special education
39 programs and funding.

1 ~~((9) A maximum of \$5,500,000 of the general fund federal~~
2 ~~appropriation shall be expended for safety net funding to meet the~~
3 ~~extraordinary needs of one or more individual special education~~
4 ~~students.~~

5 ~~(10) A maximum of \$678,000 may be expended from the general fund—~~
6 ~~state appropriations to fund 5.43 full-time equivalent teachers and 2.1~~
7 ~~full-time equivalent aides at children’s orthopedic hospital and~~
8 ~~medical center. This amount is in lieu of money provided through the~~
9 ~~home and hospital allocation and the special education program.~~

10 ~~(11) A maximum of \$1,000,000 of the general fund federal~~
11 ~~appropriation is provided for projects to provide special education~~
12 ~~students with appropriate job and independent living skills, including~~
13 ~~work experience where possible, to facilitate their successful~~
14 ~~transition out of the public school system. The funds provided by this~~
15 ~~subsection shall be from federal discretionary grants.~~

16 ~~(12) A school district may carry over from one year to the next~~
17 ~~year up to 10 percent of general fund—state funds allocated under this~~
18 ~~program; however, carry over funds shall be expended in the special~~
19 ~~education program.~~

20 ~~(13) The superintendent shall maintain the percentage of federal~~
21 ~~flow-through to school districts at 85 percent. In addition to other~~
22 ~~purposes, school districts may use increased federal funds for high-~~
23 ~~cost students, for purchasing regional special education services from~~
